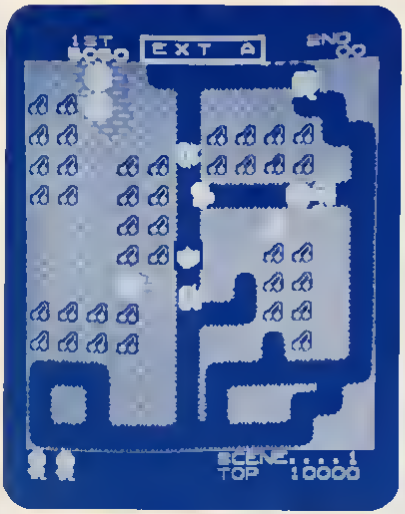
Eating, throwing or crushing..... Mr. Do! is very active!!



HOW TO PLAY

- Operate Mr. Do! to exterminate all the monsters!
- Mr. Do! continues to eat cherries while making its passage. (High score awarded when many cherries have been eaten)
- A monster arises from its nest in the center of the screen, and chases Mr. Do! along the passage. The monster, after changing shape, may make its own passage.
- A cake (center target) will appear out of the same nest from which all the monsters have arisen. When the monster eats it, it stops for a while, and an EXTRA monster will appear.
- An EXTRA monster will also appear every time 5,000 points have been scored. Wiping out all EXTRA monsters awards another Mr. Do!.
- A power ball can be hit at a distant monster, or can be effectively used to drive back the monster when it gets close.
- An apple can be moved freely even outside the passage so that it can be dropped onto the monster's head. (The monster can move an apple similarly)
- If a diamond appears from an apple which has been broken after dropping more than 2 stages, you are lucky! Eat it and win a replay!
